EXPERIENCE, KNOWLEDGE & TRUST

WOMEN IN IT SECURITY

Jennifer Friedauer is a PhD student at the Chair for Human-Centred Security at Ruhr-Universität Bochum (RUB).

Her research focuses on the education of users in the field of IT security in the form of self-efficacy, security awareness, trainings, and behavioral change. Using empirical research methods (e.g. eye-tracking, interviews und questionnaires) she investigates their experiences, knowledge and trust in technologies and systems. Jennifer graduated from RUB in 2019 with a master's degree in education and social sciences.
